Our new and proprietary OIL-FREE BIOFILL™ formula line of paintballs contains the first and most environmentally friendly patent-protected alternative fill. It is based on a natural, food-based vegetable ingredient that, unlike oil, is friendly to the phreatic and soil water zones, the soil itself, as well as the field, playing equipment and gear. This ingredient takes easy-clean no-staining to a new level. It is renewable, neutral with respect to the "greenhouse effect", neither toxic nor polluting, and biodegrades faster and completely.

HEAT

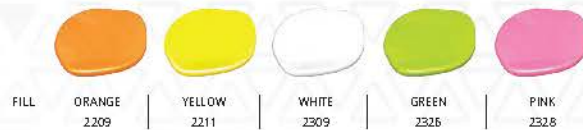

Empire Heat is the most familiar and popular entry level paint in the world. Its superb quality and consistent fill makes it the perfect choice for the paintball newcomer or cost-conscious player. Put these paintballs in your marker and see if the opposition can withstand the Heat.

PUMP MARKER

Built upon the foundation of the legendary Autococker design, Empire Paintball has created the Sniper, a new tournament level pump marker with a classic name. Bud Orr created the original Sniper in 1986, listening to Rock me Amadeus on the radio and creating the legacy that became WGP. This new Sniper incorporates the same DNA while adding the touches you expect from Empire. Cool styling, rugged reliability, and optimal performance. With the Sniper, stay true to the past, but perform like the present.

Ever broken a paintball in your barrel? Of course you have, it happens to everyone. Just slide your squeegee down the barrel a couple of times and then start shooting again. Ever break a ball in the breach of your paintball marker? If so, that's a completely different situation. For most markers, that means a trip off the field to break down your gun and start cleaning. Not anymore. With the Empire BT4 Slice feature, remove the hopper and just pull one of the shell pins and open it up to get inside to clean. You can do it right there, on the field, while under air pressure.

No other marker gives faster access to the internals of your marker than the Empire BT4 Slice Combat paintball marker, also known as the BT4 Slice Combat paintball gun. This semi-auto baby has been made for years by Empire and has moved one step closer to the perfect paintball gun. Break it down in less than 15 seconds, give it a quick cleaning and be back fighting your opponents in less than 1 minute. Spend more time on the field and less time doing maintenance with the BT4 Slice Combat from Empire Battle Tested paintball.

SPECIAL ORDER ONLY!

17120 - Empire BT4 Slice Combat

HALO^{TOO}

EMPIRE LOADER

The best performing paintball loader for the money. With a cost that is less than half the price of some top paintball loaders, the outstanding performance of this paintball loader will make this an easy choice for most players.

The ultra-quiet belt drive will force-feed 20+ balls-per-second, allowing your marker to throw plenty of paint at your opponent. The Freeway™ Anti-Jam keeps the paintball loader from jamming and breaking paintballs, so you'll still be shooting while others are busy scraping paint. The new, matte black polycarbonate shell can withstand any hit and can easily fit 180 paintballs.

38582 - Empire Halo Too Loader

FEATURES

- 20+ bps
- **Ultra-quiet belt drive**
- Freeway Anti-Jam for continuous ball feed
- Sound activated feeding
- Tool-less battery door
- Rip Drive
- 180 ball capacity
- Low battery indicator
- 1-hour auto Shut-Off
- Matte black color

SPLITTER

Empire has taken the standard 200-round hopper and through clever engineering creates a gravity hopper that decreases ball jams while increasing the rate of fire.

38601 - Empire Splitter Hopper / Black w/ Anti-Jam
38597 - Empire Splitter Hopper / White w/ Anti-Jam

FEATURES

- The Splitter is a suspended, inverted cone that reduces the downward pressure on the balls allowing them to feed cleanly down the funnel.
- No moving parts or batteries are needed for this hopper which can even outperform some electronic agitator loaders.
- Not having a motor ensures zero noise or sound from the hopper, keeping you super stealthy on the field.
- The Splitter is the perfect hopper to pair with your mechanical and e-grip marker making you a formidable opponent.

REACT PACK **HARNESS**

Need to keep it small? Locking Down a Lane? Load up with the REACT FT pack from Empire.

Are you one of those players who never knows from game to game or point to point where you might end up on the field? Do you hold it down in the back one game, then break the game open the next and hit the snake the point after that? If this sounds like you, the Empire React FT Harness is for you! Need to keep it small? or Carry a lot? Choose from the 3+6 or the 4+7 version.

Pod ejectors and easy-to-grab tabs help you grip, rip and reload quickly, while the heavy duty, adjustable Velcro™ strap is wide and comfortable, even while you're landing and crawling on it.

STRYKER

STRYKER MP1

The Tippmann Stryker features a fully Electro-Pneumatic design that makes it one of the quietest and smoothest shooting spool-valve Tippmann markers ever designed. The Tippmann Stryker has a fully programmable board with firing modes including semi burst, ramping and full-auto. These markers are tournament legal as they require an allen key to change settings.

All of the new Stryker markers are Auto cocker threaded so it will accommodate the majority of paintball barrels on the market. Not only is the marker well-built but the maintenance is extremely easy. Access to the firing engine is fast so you can get in, lube everything and keep your Stryker in top shape. The customizable design makes hundreds of accessories including lasers, flashlights, rails and scopes easy to install.

The Tippmann Stryker has been reengineered and redefined to improve overall performance for 2019.

FT-12™

FT12 RENTAL LITE 5 PACK

The FT-12 is a compact marker with an ergonomically-positioned front vertical grip, which is ideal for a wide range of players. The marker's patent-pending design makes gaining access to internals significantly easier – simply unscrew the barrel, push the unlock button on the collar, remove the barrel nut and flip the top half of the receiver off. Once inside, the modular layout of the FT-12 allows for incredibly fast and worry-free access to all key parts.

14835 - FT-12 50 CAL RENTAL (LITE)

FEATURES

- A top non-cycling cocking handle with built-in cover to protect against dirt and debris
- A 1.5 inch blade trigger with a short pull for faster firing and a more responsive feel
- An 8.5 inch high-performance barrel for greater accuracy
- A built-in sight and offset feedneck for easier targeting
- An internal gasline, offering an enhanced look while minimizing the potential for gasline damage
- A recessed safety, which is easy to engage
- A built-in barrel bag hook for fast and sturdy attachment
- Tippmann's inline bolt system, which delivers consistent and dependable performance

FT-50 Lite

FT-50 Lite

The FT-50 utilizes the same design of the popular FT-12 with a flip top, tool-less design but with new internals and barrel for .50 Cal games. There are many advantages to .50 cal games including a lower weight, less impact and less mess to clean. When the FT-50 is fully loaded with paint, the smaller hopper still carries over 300 paintballs but the overall weight is much lighter. It also provides a lower impact force that will appeal to younger players. The flip-top design makes rental maintenance easy and quick. Compared to .68 caliber paint, .50 caliber paint has lower cost, takes less storage space, and results in less paint to clean. All of these aspects of the FT-50 will ultimately contribute to the bottom line of a field.

14831 FT-50 Lite Rental 5-Pack

JT VORTEX 2 FAN

The Vortex 2 fan features a highspeed motor which extracts humid air from inside the goggle during game play.

Is fog always winning no matter where or when you play? The first step to a fog free game of paintball is a thermal lens for you goggle system. The Vortex fan is a close second! Designed to circulate air inside the mask this little fan combined with a thermal lens will prevent fog in Alaska at 10°F, 120% humidity, and panting from a 100yrd sprint. These fans are so powerful you can play with them turned off, then once you fog up, switch them on for 10-20 seconds and completely remove fog from you lens. If your fan is loud just add a few drops of paintball marker oil to the drive shaft and its back to stealth hunting! If fog is your enemy, step up your game!

M4

The **M4 Carbine Airsoft** brings full-auto-no batteries required performance and Tippmann's legendary warranty and service into the airsoft market. Key features include the Tippmann proven inline bolt system, adaptable air system, rate of fire and velocity adjustability and an authentic M4/AR style.

The M4 Carbine features a realistic flip-top break down design like a true M4/AR. Its versatile air system uses either a 12g CO2 cartridge in the 80 round magazine, or the built-in remote line. It's also compatible with airsoft's standard magazines, from 30 to 300 rounds. The M4 Carbine has a metal receiver, and is compatible with many actual M4/AR components including a rear stock, front shroud and standard Picatinny Rail System.
